2. Customer will receive OTP in email after email verification and then applying valid OTP code person will be verified as a customer.

3. After valid registration customer can log in with their username or email address and password.

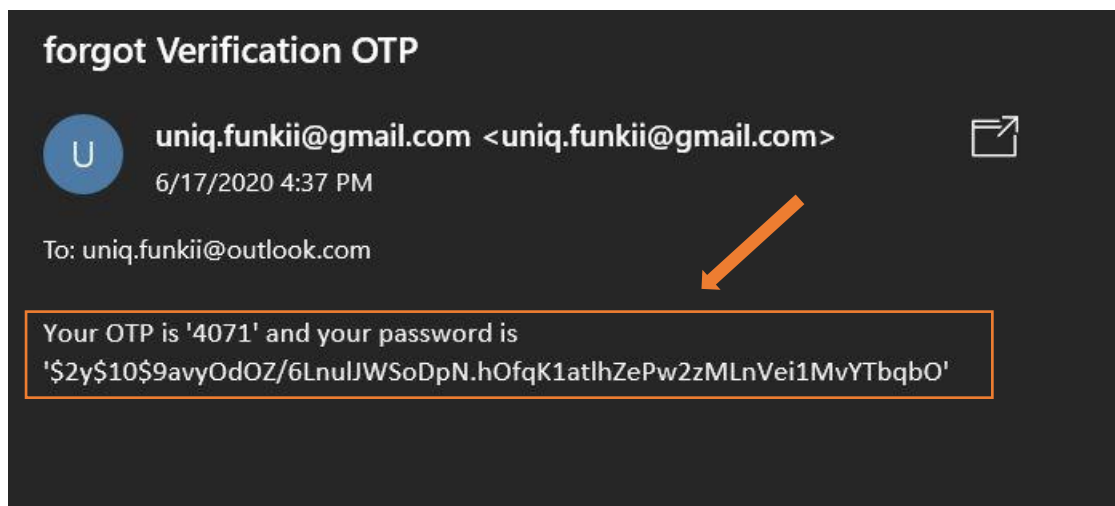

A screenshot of a web application showing two forms: "Login" and "Register". The "Login" form on the left has fields for "Username or email address", "Password", and a "Select the Type" dropdown set to "Customer". It includes a "LOGIN" button and a "Remember me" checkbox. A link "Lost your password?" is below. The "Register" form on the right has fields for "Your Name", "Email address", "Address", "Phone Number", and "Password". It includes a message "Email is taken already, Please use another Email Address". An "Activate Windows" watermark is visible in the bottom right. Orange arrows point to the "Login" form and the "LOGIN" button.

4. In case customer forget their password, customer can reset it by clicking on 'Lost your password?' where OTP will be sent in customer email with password.

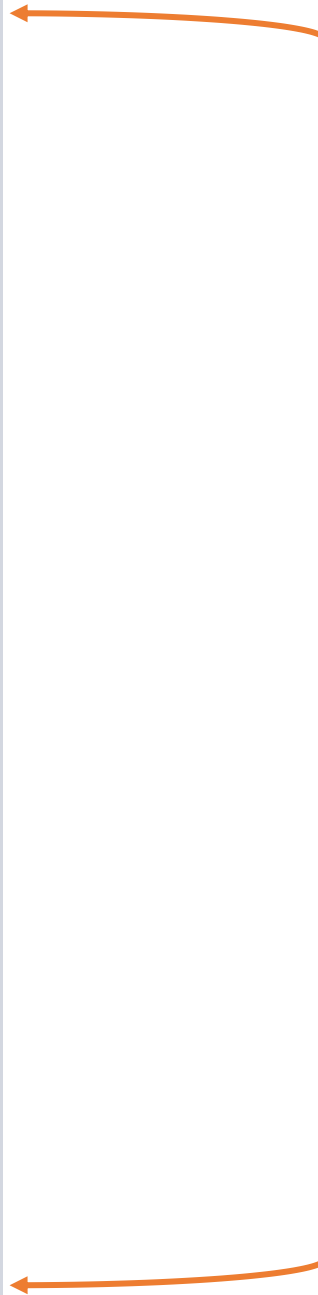

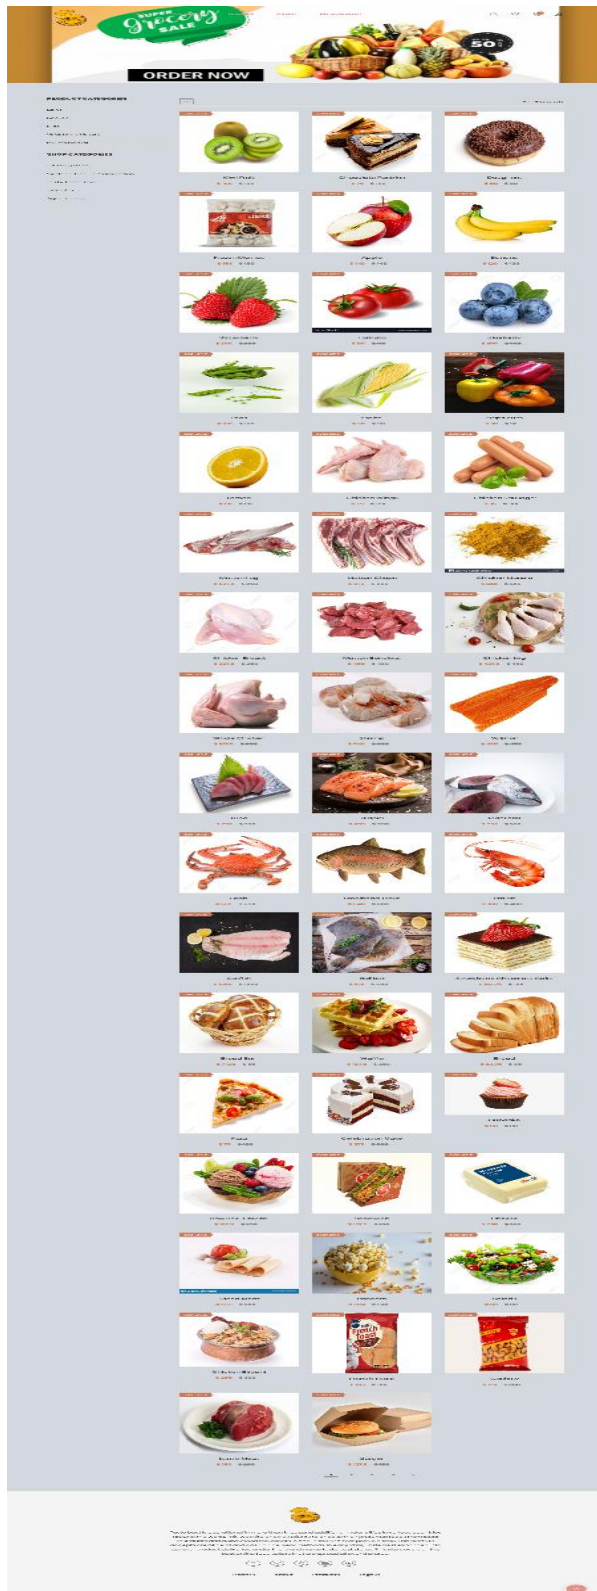

The image shows two side-by-side forms: 'Login' and 'Register'. The 'Login' form has fields for 'Username or email address', 'Password', a 'Select the Type' dropdown (set to 'Customer'), a 'LOGIN' button, a 'Remember me' checkbox, and a 'Lost your password?' link. An orange arrow points to the 'Lost your password?' link. The 'Register' form has fields for 'Your Name', 'Email address', 'Address', 'Phone Number', 'Password', 'Confirm Password', a 'Select the Type' dropdown (set to 'Customer'), and a 'REGISTER' button.

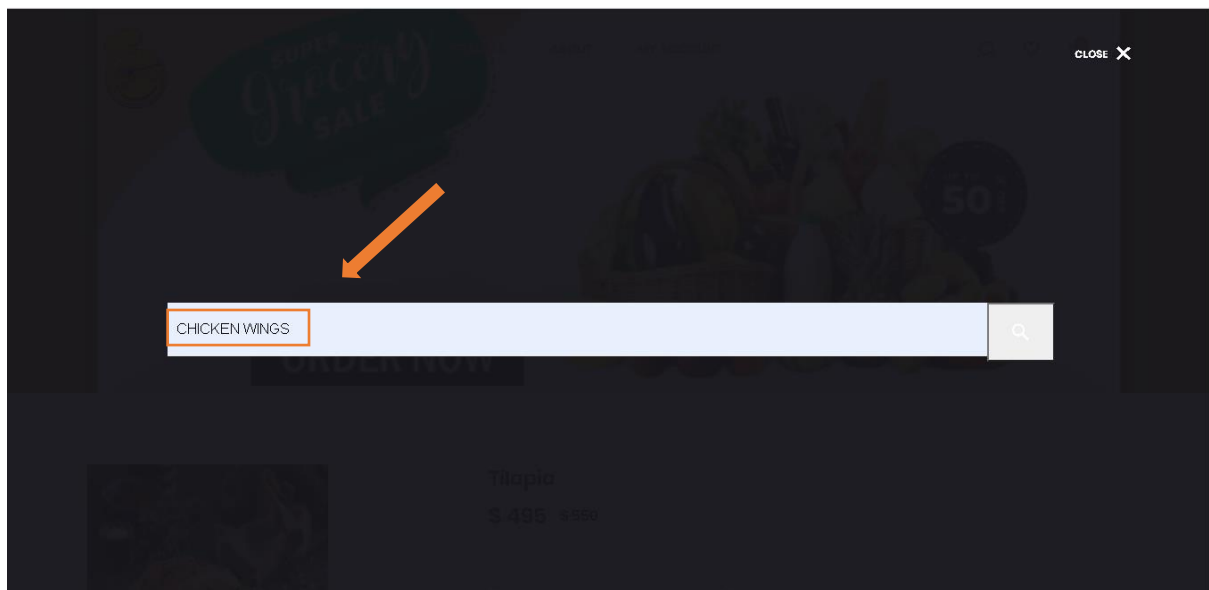

5. OTP and password sent in customer account. After pasting the valid password in required filled customer can log in again.

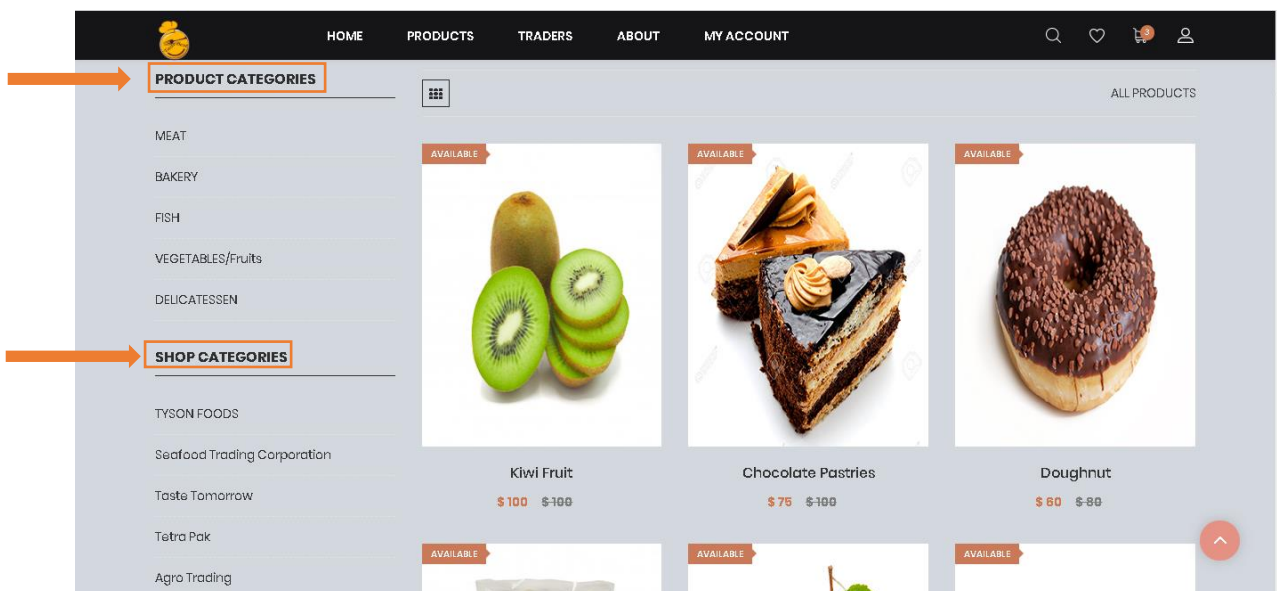

- After login in customer can visit the home page and shop the products.
Click on products to view products page.

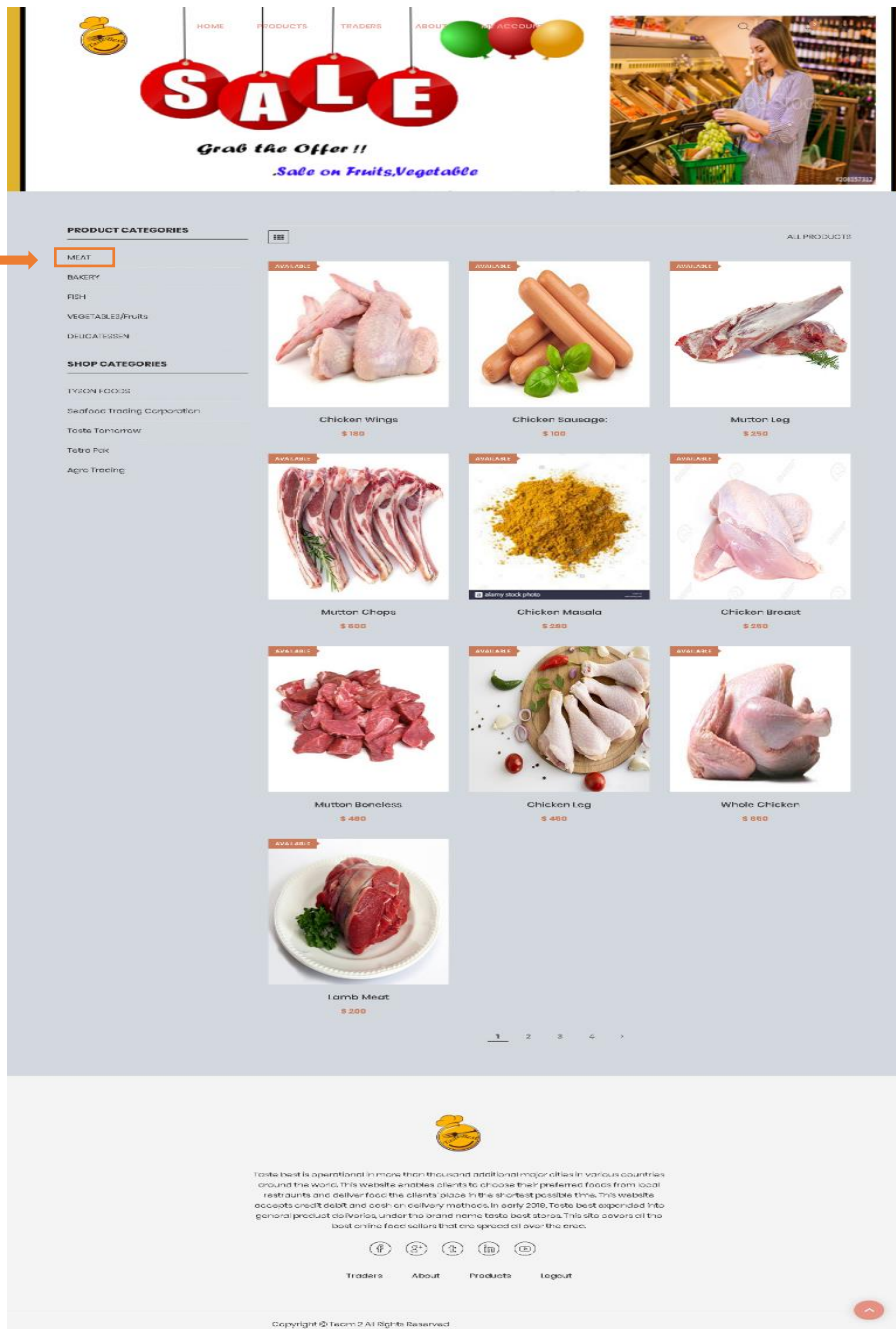

7. Customer can search for the specific product from search bar.

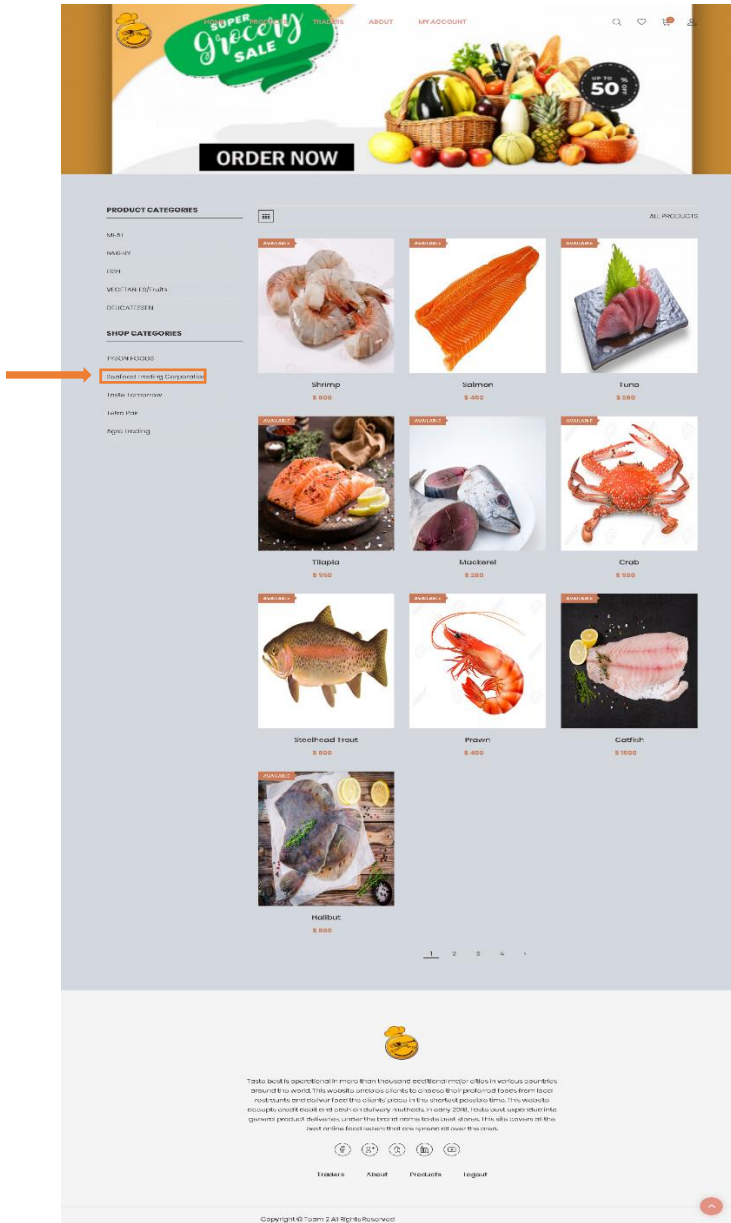

8. Customer can now shop products through product categories and shop categories in product page.

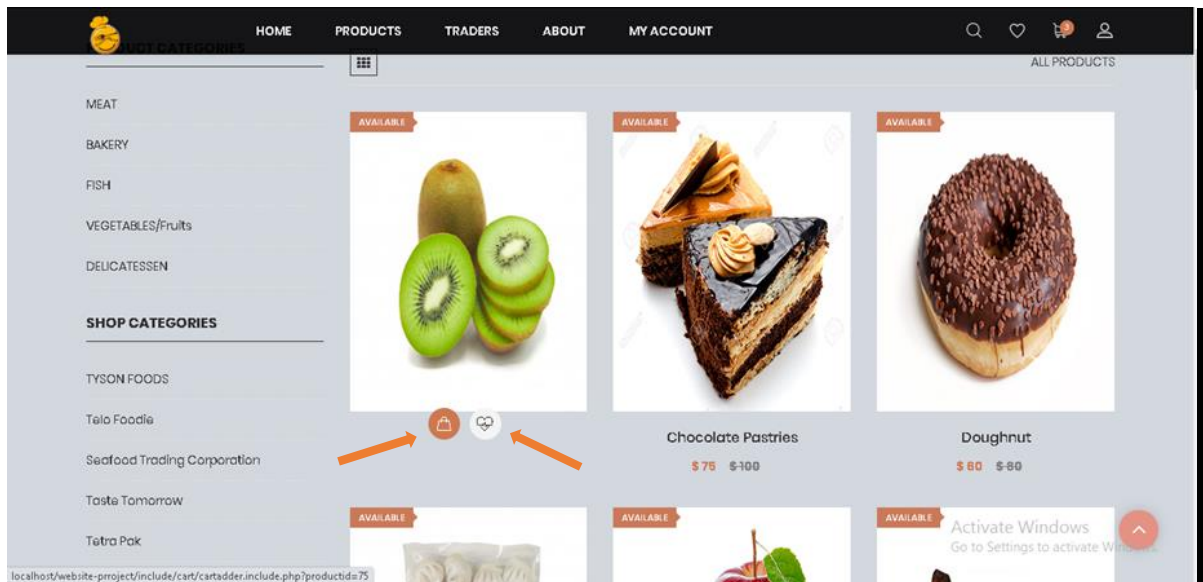

9. When customer clicks on the meat page products are sorted by meat items and this process applies to all the product categories available.

10. Similarly, customer can buy products by clicking on shop categories where products are sorted according to shops. When Customer clicks on Seafood Trading Corporation and particular products of this shop are shown.

11. Customer can add products in wishlist and to the cart by clicking icons below the products.

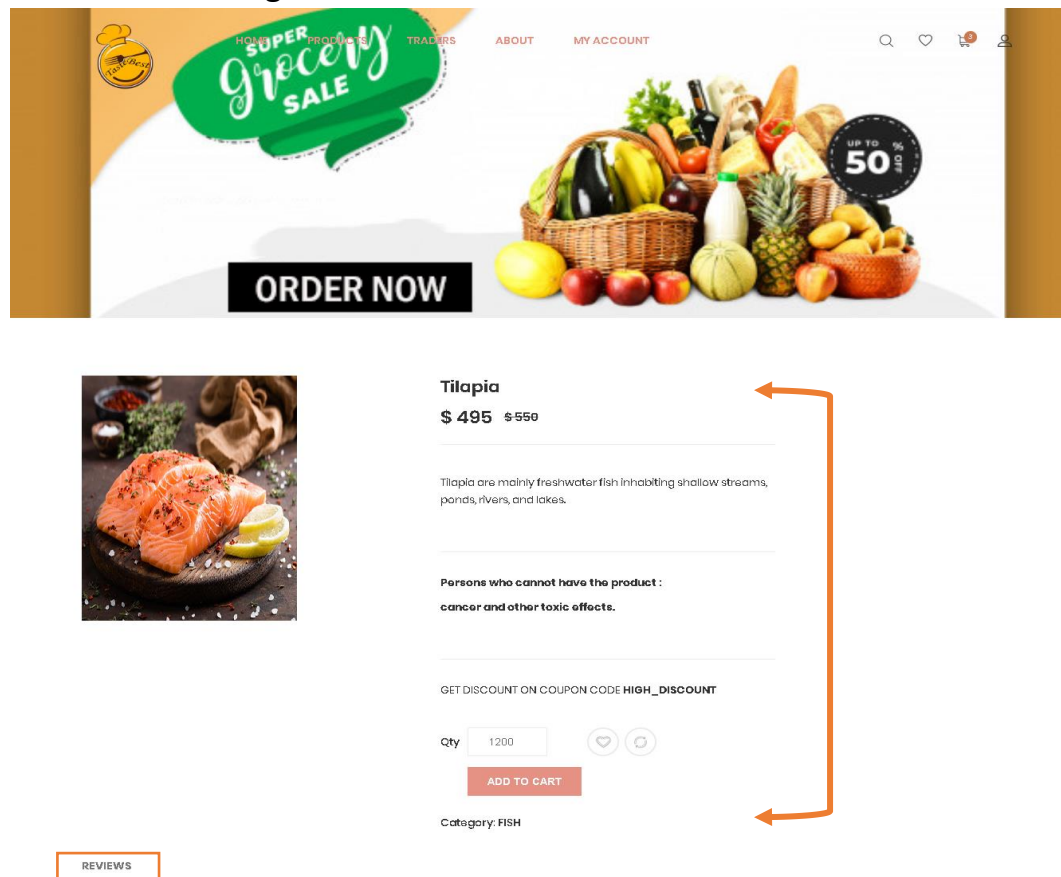

12. When wishlist icon is clicked by customer in navigation bar wishlist page along with product description appears.
